

Company Profile

EPCM Global is a management consulting services firm for public and private sector clients. We provide specialist solutions and competitive insights within our three core offerings:

1. Consulting solutions for business, project and engineering management
2. Project delivery solutions
3. Specialist staffing solutions

Unique Value Proposition

EPCM Global's unique operational culture is organised to provide high-value service delivery and measurable benefits within our core offerings.

- Our extensive **in-house, experienced expertise and knowledge base** enable us to deliver competitive insights, tailored solutions and toolsets **for highly complex and high-risk operations and project types**.
- We focus on **analysing and understanding our clients' specific challenges and needs**.
- Our solutions integrate **sound business architecture and sustainability principles** to align with our clients' strategic imperatives.
- We have access to **a network of specialist consultants** who complement our service offering.
- We will **actively engage and partner with our clients** to develop and transfer the shared knowledge and insight.

Vision and Values

Our vision

EPCM Global is committed to providing innovative management and engineering consulting solutions for complex and high-risk operations and project types, and is the preferred and trusted partner to public and private sector clients.

Our values

<i>Commitment</i>	– pledging to excellence through collaboration
<i>Insightful innovation</i>	– creating authentic solutions through thought leadership
<i>Trust and integrity</i>	– fostering relationships through honesty
<i>Empowerment</i>	– embracing diversity and social conscience
<i>Delivery</i>	– ensuring client satisfaction

BBBEE

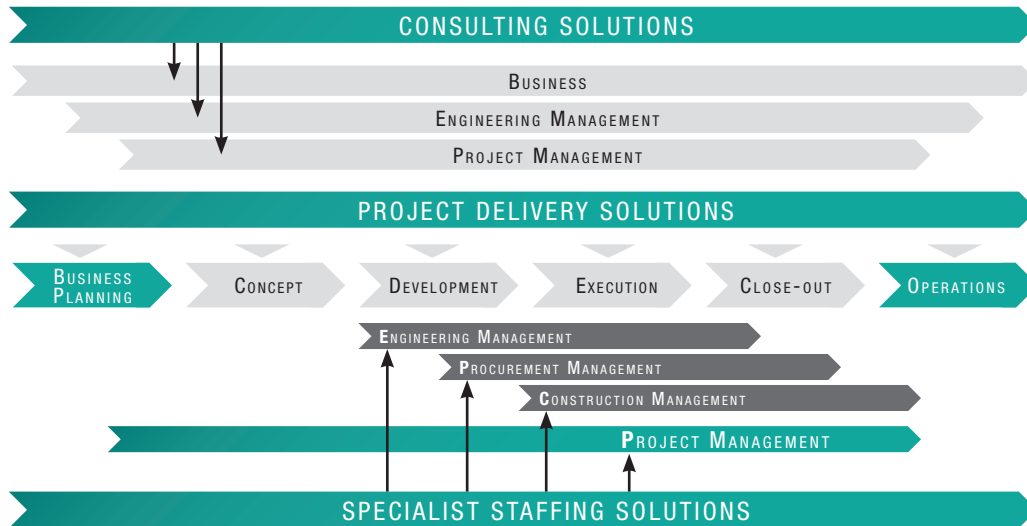

We are dedicated to implementing Broad-Based Black Economic Empowerment (BBBEE) and our initiatives are in line with the Department of Trade and Industry's Code of Good Practice. EPCM Global is currently certified as a Level 2 BBBEE contributor with a 125% procurement recognition level.

SHEQ

EPCM Global is committed to safety, health, the environment and quality. We subscribe to health and safety standards and are committed to ethical and sustainable environmental practices. We are in the process of ISO certification and affirm a reputation of quality assurance.

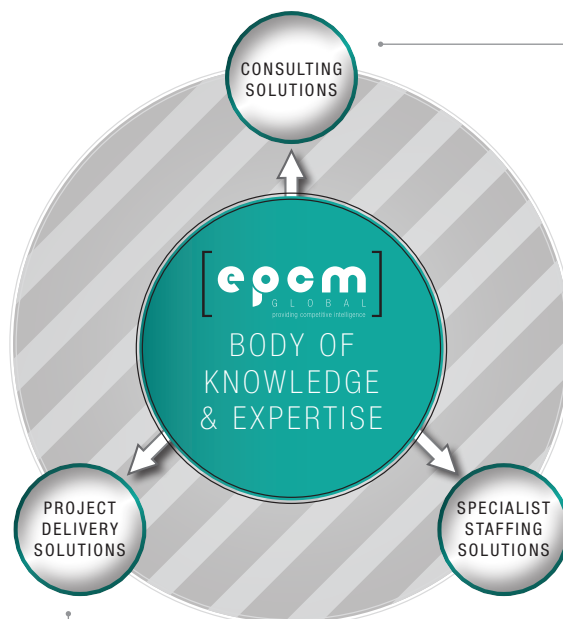

Fields of Expertise

"EPCM Global's high-performance team of professionals are committed to meeting client needs and the success of every project they undertake."

EPCM Global offers authentic, high-value solutions to optimise its clients' projects. These solutions are delivered consistently, using innovative approaches, current business information and best-practice methodologies. The solutions EPCM Global provides are applicable across the business value chain and project lifecycle as seen in the figure above.

EPCM Global's main business units are grouped according to three core offerings:

Consulting Solutions

EPCM Global has an in-house knowledge and experience base across business, project management and engineering disciplines.

- Business architecture – review the integration of your business strategy, systems architecture, sustainability principles and operations.
- Business process development and re-engineering – develop, re-engineer and standardise processes for sustainability.
- Plant lifecycle and performance improvement – develop processes and tools to address shortcomings within your company's asset lifecycle management.
- Operational optimisation – develop and implement operational improvement solutions.
- Supplier capability assessments and due diligence – make recommendations tailored to your company.
- Project readiness assessments – facilitate project definition readiness.
- Project lifecycle methodology – assess, develop and standardise project lifecycle models.
- Project governance and assurance – including project risk assessments.
- Project reviews and risk assessments – test compliance to SHEQ standards through project reviews.
- Project gate reviews – assess project readiness through independent project gate reviews.
- Project management oversight – from project definition to finalisation and hand-over.
- Regulatory compliance oversight – oversight in the development and implementation of regulatory licensing strategies and plans.
- Multi-disciplinary project integration and engineering solutions – conduct baseline assessments across engineering/technologies, project definition and systems engineering and implement multi-disciplinary review and change management structures.

Project Delivery Solutions

Drawing from proven best-practices within the consulting sphere, EPCM Global provides specialised project delivery solutions for simple, multi-faceted or First-Of-A-Kind Engineering (FOAKE) ventures.

- Full Engineering, Procurement and Construction Management (EPCM) capability assistance.
- Specialised assistance in project development, project execution and project integration.
- Our project management services include Greenfield projects, Brownfield (refurbishment and replacement) projects and project recovery.

Specialist Staffing Solutions

EPCM Global provides skilled resources and expertise in specialised staff placement and contracting.

- Recruitment of skilled staff on a permanent, contractual or temporary basis with training and technical, specialised support from EPCM Global.
- Development of resource skills.
- Service focussed on the Project Management, Engineering Management, Procurement and Construction Management industries.
- Service extends into the financial, accounting, business and information technology markets.
